Answers you can inspect.

A visual walkthrough using real free-mode outputs. This is an evidence report, not a Streamlit screenshot or a live LLM recording.

A simple question can have different correct answers. The thesis is worth 23 ECTS in AI and Cybersecurity and 25 ECTS in Informatics. Course Compass searches within the selected study area and exposes the source behind its answer.

THE EXPERIENCE

01 / Select a study area
Keep evidence inside the intended curriculum.

02 / Ask and inspect
Read the answer, source filename, page and excerpt.

03 / Check the limits
See an unsupported-question refusal and a real retrieval failure.

WHAT THIS SHOWS

The glossary retrieves German evidence containing C1. Free mode copies the German source; it does not translate it into English. Translation by optional AI mode is not demonstrated here.

WHAT THIS SHOWS

The answer does not provide the requested word count. The expected page 10 is missing from the top four in the evaluation. Grounding still passes because the returned text matches its source: lexical support is not answer correctness.
